# Unrealized Gains (Losses) on Financial Instruments (2) Impacts of the Rapidly Widened Credit Spreads

Non-consolidated

- Due to the disruption of financial markets associated with the spread of COVID-19, credit spreads expanded rapidly from February to late March 2020
- And, net unrealized gains (losses) on financial instruments (available-for-sale) greatly decreased at the end of March 2020 (compared to the end of December 2019, about ¥(3.6)tn)
- In contrast, credit spreads have gradually tightened since late March, and net unrealized gains (losses) on financial instruments (available-for-sale) have improved to about ¥1.3tn (preliminary data) as of April 30, 2020

- 4. Other securitized products are securitized products of which underlying assets are mainly auto loan claims.
- 5. "Overseas" does not include U.S. government sponsored enterprises, etc. (GSEs) related products.
- 6. The overseas collateralized loan obligations (CLO) are only those in the United States.
- 7. Net unrealized gains (losses) do not reflect the effect of foreign exchange hedging.
- (2) Structured investment vehicles (SIVs)

There were no investments in SIVs.

(3) Leveraged loans

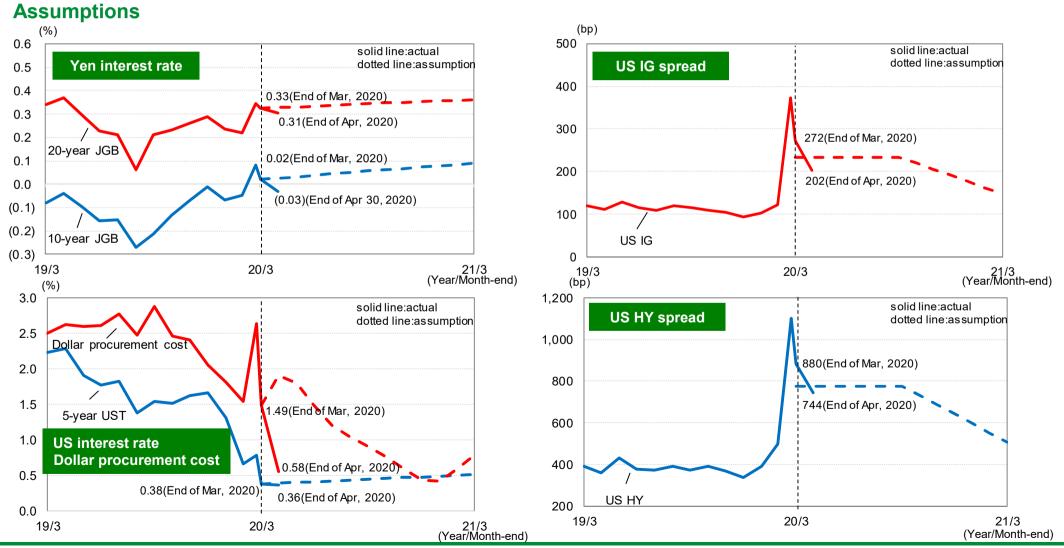

There were no outstanding leveraged loans.

(4) Monoline insurer related products

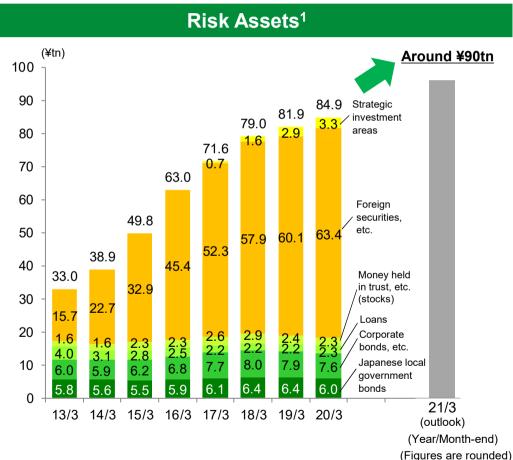

There were no monoline insurer related exposures. In addition, the Bank has not extended credit to or executed credit derivative transactions with any monoline insurers.

# 2. FY2021/3 Financial Forecasts

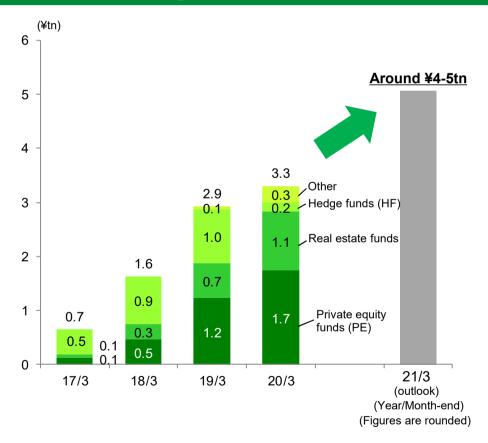

- Domestic and foreign market interest rates are based on the implied forward rates as of March 31, 2020
- Foreign credit spreads remain high during the first half of FY21/3 and will gradually decrease as the impact of COVID-19 is gradually resolved

- Amid persistent low yen interest rates and concerns over deterioration of the global economy and continued turmoil in financial markets due to the spread of COVID-19, the investment environment is extremely challenging and uncertain
- For this reason, with regard to ALM (Asset Liability Management) and investment operations, we will promote restrictive measures until the end of turmoil in financial markets. And when we get the prospect of the end of turmoil, we will ensure additional profits within the range of acceptable risk while keeping an eye on market trends

#### **Strategic Investment Areas<sup>2</sup>**

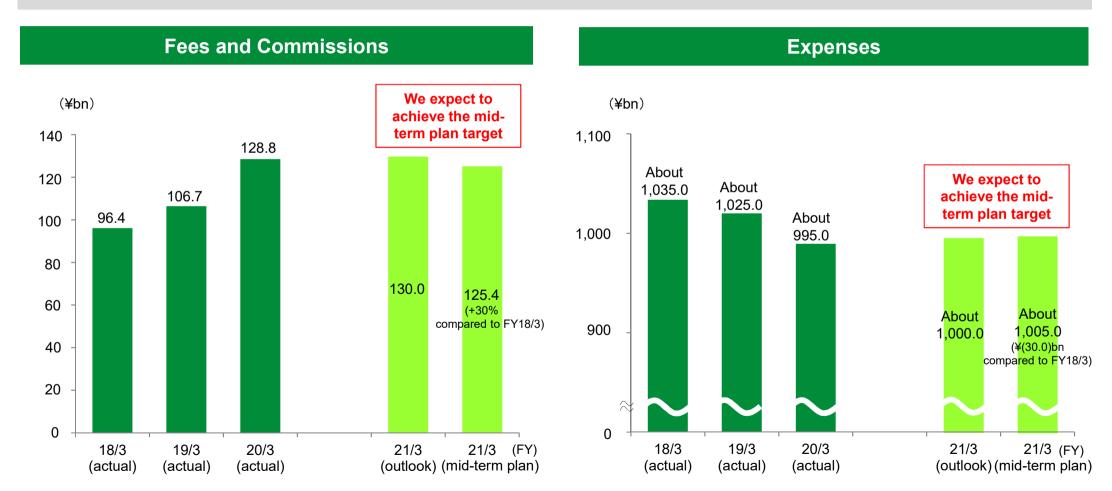

Note: At the end of March 2020, due to the disruption of financial markets associated with the spread of COVID-19, credit spreads expanded rapidly and the fair value decreased.

- 1. Assets other than yen interest rates (JGBs, etc.) (credit bonds, foreign government bonds, equities, alternatives)
- 2. "Strategic investment areas" are alternative assets (private equity funds and real estate funds (equity), etc.), real estate funds (debt) and direct lending funds.

# Fees and Commissions / Expenses Forecasts

- The outlook for fees and commissions for the FY21/3 is about ¥130.0bn
- The outlook for expenses\* for the FY21/3 is about ¥1,000.0bn
- At the moment, we expect to achieve the Mid-term plan target for fees and commissions and expenses
  - \* Excluding expenses pertaining to the consumption tax rate increase in October 2019 and the allocation of resources to growth areas

- Under the assumptions, for earnings forecasts for the FY21/3, net ordinary income and net income attributable to owners of parent are expected to amount to ¥275.0bn and ¥200.0bn, respectively
- Dividend per share for the FY21/3 is undetermined at this point, since the financial markets are in a state of uncertainty in the meantime and there is a possibility that our performance will change significantly, depending upon the market trends, we are considering it while assessing business performance trends going forward
- Taking into account uncertain future market trends etc., our current policy for dividends from surplus for the FY21/3 is to provide annual dividends, which will be provided once in that year

#### **Earnings Forecasts**

(¥bn)

	FY2020/3 (actual)	FY2021/3 (forecast)
Net interest income, etc.*	1,267.0	1,180.0
Net fees and commissions	128.8	130.0
General and administrative expenses	1,019.5	1,040.0
Net ordinary income	379.1	275.0
Net income attributable to owners of parent	273.4	200.0

<sup>\*</sup> Net interest income, etc. = Interest income - Interest expenses (including gains (losses) on sales, etc.)

#### **Dividends Forecasts**

(¥bn)

	FY2020/3 (actual)	FY2021/3 (forecast)
Dividend per share	¥50 (Interim ¥25, Annual ¥25)	Undetermined*
Total dividend payment	187.4	Undetermined
Dividend payout ratio	68.5%	Undetermined

<sup>\*</sup> Until FY20/3, we have provided dividends twice per year in the form of interim dividends and annual dividends. However, taking into account uncertain future market trends and current net unrealized gains (losses) on available-for-sale securities, our current policy for dividends from surplus for the FY21/3 is to provide annual dividends, which will be provided once in that year.

#### (Reference) Basic dividend policy (until the FY21/3)

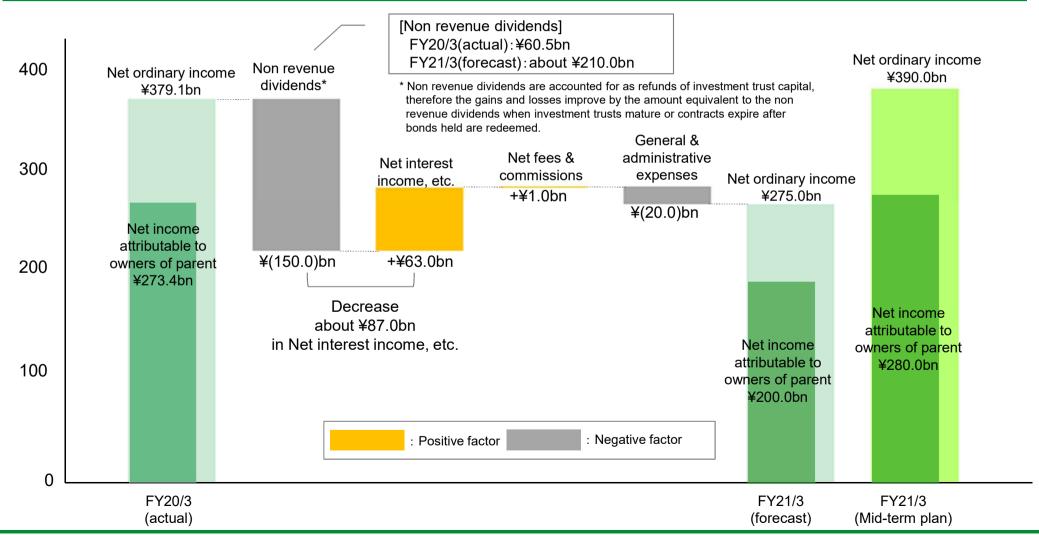

- 1. The Bank aims to secure dividends of ¥50 per share.
- 2. The Bank aims to maintain stable dividends per share.
- 3. The Bank shall also consider the implementation of additional shareholder returns according to conditions such as future regulatory trends, income growth and adequacy of internal reserves.

# Changes in Net Ordinary Income for Earnings Forecasts

Consolidated

- The decrease in income from the previous period is mainly attributable to the significant increase in those dividends from investment trusts in our held securities which are non revenue dividends not recognized in income on condition that foreign credit spreads remain high (We anticipate that the impact of these non revenue dividends will be large, especially in the first half of the year)
- If foreign credit spreads widen (or tighten) more than the amount anticipated above, then the projected income for the FY21/3 might decrease (or increase)

#### Net ordinary income comparison (FY20/3 (actual) vs FY21/3 (forecast)

# PE Investments through Japan Post Investment Corporation

- Aim to expand revenues by capturing private equity investment opportunities via Japan Post Investment Corporation funds
- Support investee companies by providing equity capital

# Aggregation of Operational Processes with Regional Financial Institutions

- We are promoting aggregation of operational processes that makes use of spare capacity at our 11 Operation Centers, in order to encourage cooperation and partnerships with regional financial institutions
- As the first step, we are introducing aggregation of operational processes related to taxes and public dues, which is a non-competitive area in the Japanese banking industry

#### **Aim of Aggregation**

To encourage cooperation and partnerships with regional financial institutions, etc.

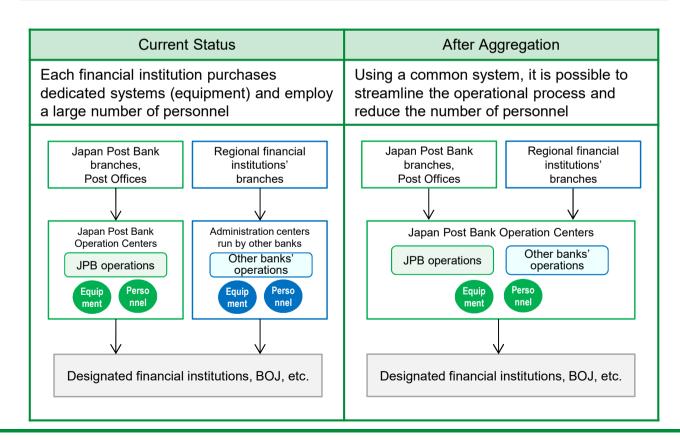

Streamline operations and ensure effective utilization of equipment and personnel

Obtain new revenue through entrusted business operations

Forming "Regional Financial Infrastructure" by promoting the aggregation of operational processes, which are "non-competitive areas" in the banking industry

# Summary of Aggregation of Operational Processes related to Taxes and Public Dues

- Accepting payments for taxes and public dues from customers at our branches
- · Categorizing and aggregating the paid bills (proof of receipt) by type
- · Sending them to the designated financial institutions, Bank of Japan, etc. on time

#### Main ATM-Related Initiatives

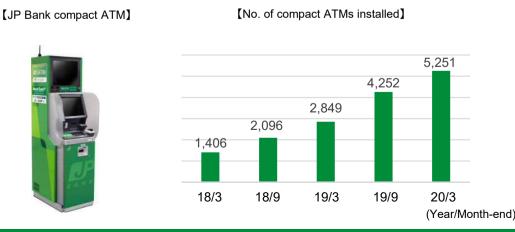

- Provide an ATM network covering all of Japan with the largest number of ATMs
- Expand win-win partnerships with regional financial institutions using the JP Bank ATM Network
- Implement initiatives to improve profitability of ATMs, such as expanding the installation of compact ATMs

#### Nationwide ATM network with the largest number of ATMs in Japan

# No. of ATMs (As of March 31, 2020) Approx. 32,000 No. of partner financial institutions: Approx. 1,400 (As of March 31, 2020)

#### ■ Increasing compact ATMs at FamilyMart, etc.

We are currently expanding the installation of compact ATMs compatible with 16 languages at FamilyMart and other locations

#### Win-win partnerships with regional financial institutions, etc.

■ JP Bank's ATM network platform\* and cooperation with regional financial institutions

#### [ATM network platform]

Apr 2019 **The Ehime Bank, Ltd.**: Free ATM charge nationwide up to 4 times a month during the day on weekdays

**The Bank of Nagoya, Ltd.**: Free ATM charge nationwide up to 4 times a month during the day on weekdays for customers who make a certain number of transactions

\* A partnership arrangement for waiving fees when an ATM card of a regional financial institution is used at a JP Bank ATM. Terms and conditions for waiving fees are set by each financial institution.

#### [Installing Partnered ATMs]

Two locations of ATMs installed outside the branch with the Shonai Bank (December 2019 and February 2020)

# Agency Commissions Paid to Japan Post Co., Ltd.

- Agency commissions consist of basic agency commissions (commission for operating deposits, investment trusts, and for remittance and settlement services) and sales & service incentives
- The Contribution System for the support of postal service network (hereinafter called "contribution") was introduced in FY2020/3 and we revised how to cover the cost of agency services provided by Japan Post Co., Ltd. using contribution and (new) basic agency commissions. The (new) basic agency commissions maintain a structure that will reflect any change in operating efficiency of our directly-operated branches. In FY2021/3, we will begin efforts to significantly reduce the number of teller employees in our directly-operated branches during the next Mid-term Plan period (FY2022/3 FY2024/3) in light of changes in customers' lifestyles
- The (new) basic agency commissions for FY2020/3, have been set by deducting the component covered by contribution from the amount corresponding to the cost of agency services

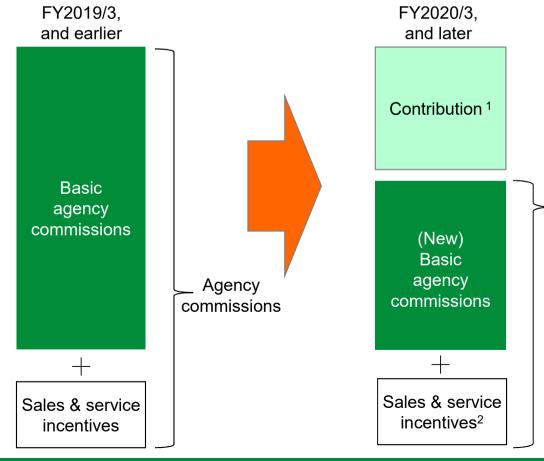

#### (Basic agency commissions)

Using operating costs at our directly-operated branches as a benchmark, we paid an amount corresponding to the cost of agency services based on the actual results of services and transactions handled by Japan Post Co., Ltd. (post offices).

#### (Sales & service incentives)

Paid in line with achievements in sales targets and improvements in service quality.

\*1: Contributions are calculated each fiscal year by the Organization for Postal Savings, Postal Life Insurance and Post Office Network and approved by the Minister of Internal Affairs and Communications (Japan).

(New) Agency commissions

#### (Revision of calculation method)

Calculated by multiplying the percentage increase or decrease from the previous fiscal year's amount corresponding to the cost of agency services (based on the costs of our directly-operated branches) by the previous fiscal year's basic agency commissions.

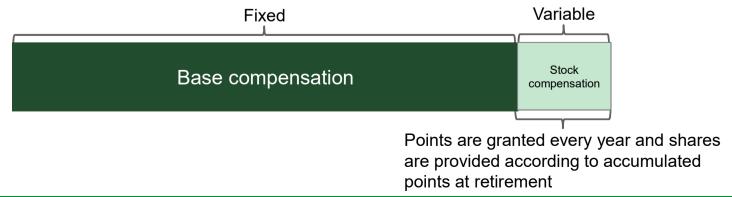

\*2: Sales & service incentives are set as before.

# Performance-Linked Stock Compensation System for Executive Officers

Introduction of performance-linked stock compensation system for Executive Officers in May 2016

#### Overview of performance-linked stock compensation system for Executive Officers

- The compensation of the Executive Officers of the Bank shall consist of a "base compensation" component as fixed compensation, and a "performance-linked stock compensation" component as variable compensation
- The objectives of the system are to further enhance the awareness of Executive Officers regarding the importance of contributing to sustainable growth and enhancing the Bank's corporate value over the medium and long terms
- Points that are calculated by multiplying the sum of basic points corresponding to separately prescribed duties
  and evaluation points based on individual evaluation by a coefficient that varies according to the state of
  achievement of management targets shall be granted every year, and shares corresponding to the points
  accumulated at the time of retirement from office shall be provided. However, a certain percentage of this shall
  be paid in the form of money obtained by converting the shares into cash
- The system enables shares provided at the time of retirement to be reduced or not provided if the recipient has breached duties as an Executive Officer, etc.

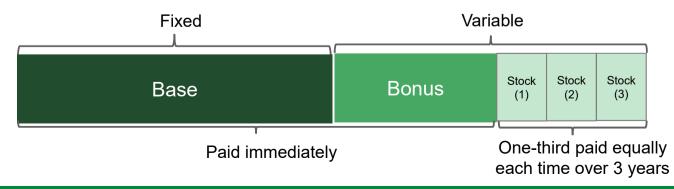

# Employee stock ownership plan for management employees of the Bank's Investment Division

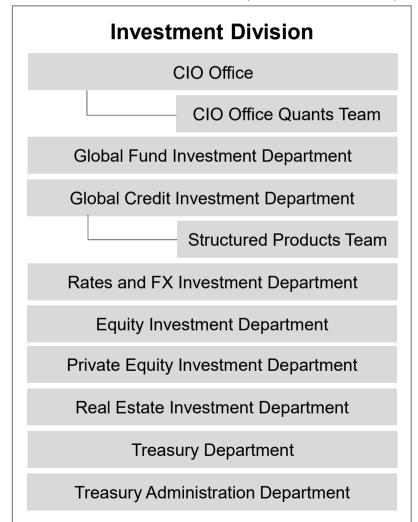

■ As part of our effort to promote diversification and sophistication of investment management, the Bank introduced an employee stock ownership plan for management employees of the Bank's Investment Division in April 2016

# Overview of employee stock ownership plan for management employees of the Bank's Investment Division

- The compensation of management employees of the Bank's Investment Division consists of fixed compensation and variable compensation (performance-linked portion)
- The variable compensation contains stock-based rewards, in addition to cash, as a compensation payment method that emphasizes the creation of longer-term corporate value
- In light of Japanese and overseas regulations and guidelines, the plan is implemented with a three-year deferral for granting the Bank's shares
- The Bank will be entitled to reduce or confiscate the deferred grant, depending on factors such as the earnings performance of the Bank or the employee
